

The average grade point includes all courses (compulsory, restricted, optional). If there is a failing and has not yet been retaken or the retake is still not passed, the course is calculated with zero points when calculating the grade point average; if the pass is passed, the grade point is calculated and the credit is counted in the total credits.

The specific GPA algorithm is as follows:

If the score is calculated by score:

Level 06 and previous grades:

If (score >=90) then grade point = 4

Elseif (85<= grade <90) then grade point = 3.7

Elseif (82<= grade <85) then grade point = 3.3

Elseif (78<= grade <82) then grade point = 3

Elseif (75<= grade <78) then grade point = 2.7

Elseif (72<= grade <75) then grade point = 2.3

Elseif (68<= grade <72) then grade point = 2

Elseif (64<= grade <68) then grade point = 1.5

Elseif (60<= grade <64) then grade point=1

Else grade point=0

Endif

Grade 07 and beyond:

The grade point below 60 points is 0, and the grade point algorithm between 60 and 100 points is as follows:

Course grade point = $4 - 3 \frac{(100 - X)^2}{1600}$ ($60 \leq X \leq 100$)

Grade	Grade point	Grade	Grade point	Grade	Grade point	Grade	Grade point	Grade	Grade point	Grade	Grade point
60	1	61	1.15	62	1.29	63	1.43	64	1.57	65	1.7
66	1.83	67	1.96	68	2.08	69	2.2	70	2.31	71	2.42
72	2.53	73	2.63	74	2.73	75	2.83	76	2.92	77	3.01
78	3.09	79	3.17	80	3.25	81	3.32	82	3.39	83	3.46
84	3.52	85	3.58	86	3.63	87	3.68	88	3.73	89	3.77
90	3.81	91	3.85	92	3.88	93	3.91	94	3.93	95	3.95
96	3.97	97	3.98	98	3.99	99	4	100	4		

If the results are calculated in the field (excellent, good, pass and fail are the same assessment criteria; pass and fail are subject to the same assessment criteria):

If (score = "excellent") then grade point = 4

Elseif (achievement = "good") then grade point = 3

Elseif (score = "pass") then grade point=1

Elseif (score="fail") then grade point=0

If (achievement = "qualified") then grade point = 4

Elseif (score="failed") then grade point=0

Note: For grades 07 and beyond, the results of the course (judgment criteria: courses that are “qualified” in addition to physical education) are not included in the GPA statistics.

Calculation of grade points: □

1. Grade point of achievement for a course = Grade Point × Student Score□

2. Academic year or total evaluation grade point = the sum of the grade points of the course credits and the credits of the course credits

For example, the two courses are 2 and 3, respectively, with grades of 3.7 and 4.0, respectively.

Then the average grade point is $(3.7 \times 2 + 3 \times 4.0) / (2 + 3)$.
